

Craven Community College

QEP Executive Summary

The focus of Craven Community College's Quality Enhancement Plan, **ACE**, is to foster collaborative relationships between students and their advising teams. The intent is to guide students through the development of educational goals that align with their personal interests, skills, and abilities and to provide students with layers of comprehensive support. Each advising team is comprised of a professional advisor, a faculty mentor, a peer mentor, and the student. Programmatic goals are designed to provide students with a more structured advising program and the opportunity for consistent and persistent one-on-one contact.

Goal 1. Engage students in the Advising process, creating a student-advising team partnership

Goal 2. Assist students to plan, integrate, and align their academic program to meet their personal and career goals

Comprehensive advising functions include:

- Establish and sustain a personal and professional relationship between the advising team and advisee.
- Coach and mentor students towards the early development of educational goals and selection of program of study.
- Guide students in creating and following an individualized academic plan which will lead to completion.
- Be a resource for information about programs, courses, careers, and general college information needs.
- Monitor and provide feedback on academic plans and student progression.

ACE furthers the mission of our institution by building relationships that enhance learning, that lead to the achievement of educational goals, and that assure our students contribute and compete in a diverse and global economy.
